Columbia Machine, Inc. Promotes Experienced Engineering Manager into Equipment Modifications & Technical Sales Position.

VANCOUVER, WA (USA) - June 10, 2019 – Kevin Brown, President of Columbia Machine, Inc.'s Concrete Products Division announced the promotion of Jay Fenander to Equipment Modifications & Technical Sales. In his new role, Jay will leverage nearly 40 years of industry experience to support our customers with dedicated part conversion and retrofit resources.

"We are continuously investing in ways to support and improve our customers' operations," said Brown. "Moving Jay into this new position allows us to focus directly on innovative ways to ensure our customers are producing high-quality products as safely and efficiently as possible."

"I am excited about the challenge of moving into a new position at Columbia after over three decades in the Concrete Products Engineering team," said Fenander. "Our ability to provide increased value and performance to existing equipment, in the form of updates and retrofits, is a great opportunity for our customers."

Columbia continues to prioritize customers' operations by dedicating valuable resources to improving the quality of their production equipment. Jay's new position expands our customer support system and will allow us to persist in upholding the Columbia mission of serving our current and future customers with superior solutions.

ABOUT COLUMBIA MACHINE

Established in 1937, Columbia Machine is a fourth generation, privately held, world-wide leader in the design, manufacturing and support of factory automation equipment solutions for a variety of industries, with customers in over 100 countries around the world. Primary business units include: Batching and Mixing Solutions, Concrete Products Equipment Solutions, Production Equipment Molds, Bag Filling and Handling Technology, Mechanical Palletizing Machines, Robotic Palletizing Solutions, Conveyor System Solutions, Pallet Load Transfer Solutions and Manufacturing Services. The Columbia Group of companies has manufacturing facilities on four continents, with over 1,000 team members worldwide, focused on world-class engineered solutions and customer service.

Everything we do . . . always from the eyes of our customers.
